Libraries

WEB
Challenge 1
Librarians’ ever more complex workflows and growing need for better metadata

Challenge 2
Users start their search in the internet library metadata needs to be there
Evolution of Metadata Management and Library Catalogs

Evolution of Metadata Management and Library Catalogs

- The model of the card catalog -
Evolution of Metadata Management and Library Catalogs

- The model of the card catalog -
The world's libraries. Connected.

Evolution of Metadata Management and Library Catalogs

Connect the library world with the World Wide Web of Data
The world's libraries. Connected.

Connect the library world with the World Wide Web of Data
If you want to go fast, go alone.

If you want to go far, go together.

- African proverb

Thank you!
